EXPERIENCE

Vyro

Product Design & Growth

2025 — Present

On-site, Islamabad, PK

Drove design across ImagineArt and Chatly, scaling the shared design system while owning end-to-end design for AI-powered features across the visual, productivity, motion, and audio suites, with every flow built to move conversion and ROAS.

Leadership. Took end-to-end ownership of features in the genAI space, carrying each from first concept to dev-ready handoff.

Engineering. Built design docs for devs and used Figma MCP and Claude Code to prototype and test approaches roughly **10x** faster, cutting friction out of design-to-development handoff.

Growth & Data. Ran Mixpanel funnel analysis across **1.13M** signups to pinpoint where activation broke, isolating a segment converting at **0.43%** against a **1.04%** baseline, then designed and shipped the fix.

Socials Team. Partnered on launch campaigns for the features I designed.

Chatly + ImagineArt

Present

Led end-to-end design for Sites, Chatly's AI web app builder, in partnership with ImagineArt, owning the full journey from custom authentication and growth loops to landing pages and dashboards. Generated production visuals with AI and built Figma MCP and Claude Code prototypes that cut friction out of dev handoff.

Chatly

Feb 2026 — Present

Owned design across the full product, from core feature surfaces to the activation and revenue flows that determine whether users stay and pay. Designed AI Images, Videos, and Music, authentication and settings, post-signup and post-purchase onboarding, custom dashboards, and native mobile experiences. Rebuilt the referral system end to end (**50% off** for referred users, **7,000** credits per paid upgrade) and rewrote the paywall into **three** A/B-tested variants.

ImagineArt

2025 — Feb 2026

Shipped end-to-end design for four core products, the Imagine Apps Suite, Assets, AI Avatar Studio, and AI Video Studio, plus the Workflows surface, carrying each from first concept to dev-ready handoff.

sxtudios

Founder

2025 — Present

Islamabad, PK

Run an independent studio delivering product design and brand work for early-stage clients end to end, prototyping in code to compress concept-to-ship timelines.

	Parhlai Product Design, Marketing & Growth 2025 — Present Islamabad, PK	Drove product design, marketing, and growth for an ed-tech platform, scaling from digital marketing into a growth-consulting remit that owns acquisition and retention.
	Growth Consultant Jan 2026 — Present	
	Head of Marketing Oct 2025 — Jan 2026 · On-site	
	Digital Marketing Consultant Jun 2025 — Oct 2025 · Hybrid	
	NorenzTech Lead UI/UX Engineer 2024-2025 Rawalpindi, PK	Owned both interface design and the front-end build for the company's products end to end, designing in Figma and shipping in code.
	easytect UG UX Designer 2024 Westerburg, DE · Remote	Designed product interfaces for a German software team, reworking core flows to make them easier to use.
	Earlier roles Marketing & Creative 2022 — 2025	Graphic Designer at ACM Pakistan (2022 to 2024), plus marketing and creative-lead roles at Career Konnect and Shadiyana (2025), owning brand and campaign output across each.
